Antique Hardwoods Clean Face Solid Flooring

PENNSYLVANIA BARNWOOD

Our 100% reclaimed Clean Face Mixed Hardwood flooring features rich color and grain variations, creating a stunning floor that brightens any room. This remarkable flooring captures the natural beauty through its rich hues, ranging from pale beige to smokey amber and greyish brown. The expertly planed surface beautifully highlights the tight grains and distinctive features of aged Old Growth American Oak, Hickory, Elm, Beech, Walnut and Ash, including knots, checks, and nail holes that recount its captivating history.

Sourced from centuries-old Pennsylvania barn beams, our planks reflect our commitment to sustainability while adding unmatched historical charm to your space. Each plank undergoes meticulous planing to achieve perfection, resulting in a floor that not only enhances your environment, but also contributes to the preservation of our precious resources.

TIPS FROM THE MILL

- If you are installing material 7" or wider, we suggest a nail and glue down. Bostik's BEST makes a great adhesive with a moisture vapor barrier.
- When including a pre-finish to any flooring, a micro bevel is required to keep the finish from standing proud on the edges.
- Ask us about matching stair parts, registers, & transitions. We offer all standard nosing, returns, risers, stringers, & landing treads.

CUSTOM MILLING OPTIONS

NEED A QUOTE? WE'LL NEED SOME DETAILS.

- How much square footage do you need for this project?
 - We suggest 10-15% overage for waste & fall off.
- What widths & lengths do you need? Wider or singular widths and longer lengths possess a higher level of rarity & increased investment.
- What thickness would you like?
 - 5/8" allows the mill to choose from a larger range of material increasing quality & decreasing lead time.
- Would you like a milled profile or straight edge?
 - Straight Edge (SLR)
 - Tongue & Groove (T&G)
 - End-Matched (EM) *10" Max
 - Micro Bevel (MB)
 - Eased Edge (EE)
- How are you planning on shipping the material? Whether its LTL, Hot-shot or Full Truckload, we can assist with set-up.

Tip - You can create a singular board look by easing/texturizing the edges.

Did you know? These planks were cut from barn beams harvested by hand in the 17-1800's. Most of them starting from seedlings in the 14-1500's!
