RECLAIMED BUILDING MATERIALS FROM THE SOURCE

Natural Grey Exterior Siding Boards

EASTERN WHITE PINE

Our "Natural Grey Board" is named after the striking, silvery-grey tones that develop naturally on Eastern White Pine and Eastern Hemlock boards after exposure to rain and sun. We carefully age the wood in the elements over several seasons to achieve the perfect balance of texture and weathered grey tones.

Our Natural Grey Board boasts a subtle, refined texture that is circle sawn and highly sought-after for its consistent widths, lengths, and appearance compared to other original face lumber. This rustic, naturally distressed look is perfect for a wide range of applications, including large commercial projects, home and barn siding, as well as indoor wall and ceiling cladding.

SPECIFICATIONS & UNIQUE FEATURES

| | | | |
|---|---|--------------------------|---|
| Species: | Eastern White Pine & Hemlock | Finish: | Naturally aged. Matte sealer can be applied to hold color. |
| Source: | Sustainably Harvested Forests in Pennsylvania | Moisture Content: | Kiln dried 6-9% prior to shipment/milling. |
| Color: | Tones may range from light to dark grey & smokey brown. Reclaimed products may exhibit an indefinite range of color variations. | Knots: | There are no restrictions on the presence of sound knots. |
| Original Edge Dimensions: *All Singular | Height 7/8 - 1" Width 6,8,10 or 12" Length 8,10,12,14 or 16' | Texture: | Circle Sawn & Lightly Weathered. |
| Milled Dimensions: *All Singular | Height 5/8, 3/4 & 7/8" Width 5,7,10 or 11" Length 8,10,12,14 or 16' | Voids: | Chips & open knots with a diameter of up to 1.5" may be present. In some cases, larger voids may be included to maintain the board's length. |
| Rare/Custom Dimensions: | N/A | Discoloration: | There is no limit to the amount of natural weather & mineral staining. |
| | | Checks: | Structural checks that do not compromise the plank's integrity after installation are permissible and tend to be more common as the material's width increases. |

TIPS FROM THE MILL

- Retaining the original edge of natural grey boards creates an authentic & original appearance to the space.
- Use a matte black UV-Protected rainscreen system. We suggest [Benjamin Obdyke](#).
- To seal in the natural color & protect the wood from UV and moisture damage, use an ultra matte or dead flat exterior sealer. We suggest [Modern Masters Dead Flat Exterior Varnish](#).

CUSTOM MILLING OPTIONS

NEED A QUOTE? WE'LL NEED SOME DETAILS .

- How much square footage do you need for this project?
 - We suggest 10-15% overage for waste & fall off.
- What widths & lengths do you need? Original edge widths may vary by 1/4". Milled widths are true.
- What thickness would you like? Original front & back is rough sawn to 1" and can vary by 1/8"
 - Material can be back planed to 5/8", 3/4 & 7/8 (for more stability we suggest as you go wider, go thicker)
- Would you like a milled profile? This material has a beautiful original edge and is installed often as open-joint cladding.
 - Original Edge (OE)
 - Straight Edge (SLR)
 - Tongue & Groove (T&G)
 - Ship Lapped (SL)
- How are you planning on shipping the material? Whether its LTL, Hot-shot or Full Truckload, we can assist with set-up.
